<p>Padi Open Water Certification This course is a complete 3 day comprehensive hands on performance based course designed to ensure that students become competent and safe scuba divers. The course consists of open water academic theory, confined water training in a 12 meter pool and 4 open water dives. Divers are required to perform a 200m swim test and 10 minutes tread. Upon completing the course, divers receive a license to dive that is valid for a lifetime. Each PADI Open Water Certification course includes all necessary training materials (PADI) manual, log book, and recreational dive planner) delicious snacks, cold beverages and a hot water shower after each dive.</p>	INQUIRE
<p>Padi Open Water Referral Course This course includes the four open water training dives that are needed to complete a certification course that was started elsewhere. Student divers must have their PADI referral form documenting the completion of all academics as well as confined water training completed within the last years. This course includes tanks, weights and gear package, delicious snacks, cold beverages and a hot shower after every dive. Open water certification (open water portion only) USD</p>	INQUIRE
